

NIKKU KUMAR

Java Backend Developer | Spring Boot | Microservices | REST APIs

Bangalore, India | 8207676149 | nikku.india05@gmail.com | linkedin.com/in/nikku-kumar-30b3a3235

SUMMARY

Java Backend Developer with 2+ years of experience delivering backend services, REST APIs, workflow automation, and database-driven enterprise applications across Java, Spring Boot, Microservices, JPA/Hibernate, JDBC, PostgreSQL, MySQL, and SQL. Owned API development, backend business logic, database integration, debugging, and release support. Delivered 30+ APIs, cut API latency by 25%, automated manual workflows by 70%, and resolved 15+ production issues.

TECHNICAL SKILLS

Languages: Java, SQL

Backend: Spring Boot, Spring MVC, Spring Data JPA, JPA, Hibernate, JDBC, REST APIs, Microservices

Databases: PostgreSQL, MySQL, SQL optimization, joins, indexing, schema design

Testing: JUnit, Mockito, Postman, API testing, unit testing

Tools: Git, Maven, Docker, Jenkins, DBeaver, Spring Tool Suite, WebLogic

Integration: Kafka fundamentals, API integration, third-party service integration, external system integration

Core Skills: OOP, Data Structures, Algorithms, LLD, REST Architecture, exception handling, request validation

Domain Exposure: Workflow Automation, Customer Onboarding, Approval Systems, Loan Processing, Banking and Fintech Applications

PROFESSIONAL EXPERIENCE

Associate Software Developer - Java Backend

Nov 2024 – Present

Rumango Software Consultancy

Bangalore, India

- Delivered backend features for 2 enterprise platforms with Java, Spring Boot, REST APIs, JPA/Hibernate, JDBC, and SQL.
- Engineered 30+ REST APIs covering request checks, centralized error handling, repository integration, and Postman test execution.
- Automated customer onboarding and internal workflow processes, reducing manual effort by 70% through backend workflow automation.
- Optimized SQL queries, service-layer logic, and database access patterns, improving average response performance by 25%.
- Configured backend modules for customer management, approval workflows, debit card processing, cheque processing, and loan lifecycle operations.
- Resolved 15+ production issues involving API failures, data mismatches, integration defects, workflow errors, and database inconsistencies.
- Integrated 3 external systems, including CRB, IPRS, and Flexcube, for customer verification, loan processing, and external system operations.
- Orchestrated approval workflows for 8+ business modules through API design, backend validation, database mapping, and release support.

Java Full Stack Developer Intern

Nov 2023 – Oct 2024

Tap Academy Pvt. Ltd.

Bengaluru, India

- Completed an 11-month Java full-stack internship covering Core Java, OOP, JDBC, Servlets, JSP, Spring Boot, and MySQL.
- Created REST APIs using 3-layer architecture with controller, service, and repository components.
- Structured MySQL tables and SQL queries for 4 CRUD operations, joins, filtering, and API response handling.
- Executed API testing, request handling, validation, and database operations with Java, Spring Boot, JDBC, and MySQL.

PROJECTS

Spring Boot REST API Project

Java, Spring Boot, JPA, MySQL, REST APIs

- Developed 4 CRUD REST APIs using Spring Boot, JPA repositories, MySQL, and layered architecture.
- Added input checks, global error responses, MySQL persistence, and Postman test cases.

Blog Application with User Roles

Java, Spring Boot, JSP, Servlets, MySQL

- Implemented role-based access for 2 user types, Admin and Viewer, with authentication and content management.
- Managed database-backed user flows, access control, and backend logic using Java, Spring Boot, JSP, Servlets, and MySQL.

EDUCATION

B.Tech in Computer Science

2019 – 2023

Katihar Engineering College
